Note your decision on the appropriated box.

☐ **Approved**

All changes apply.

☒ **Approved in Part**

Specify below which changes **do not** apply.

☐ **Denied**

State the reasons for denial below.

Comments:

The change to Example 86 in Column 77, lines 40-45, would introduce new matter. The R variable substituent printed in the patent for Example 86 has the exact stereochemistry as found in the originally filed specification on page 70, last line of page.

Entire Column 97 and Column 98, lines 1-39, should not be deleted. Certificate of Correction is not proper for this type of change to the patent.
